

Creating a Turnitin Grading Form

Moodle 4.0 Help (For Staff): <https://www.lttc.eduhk.hk/moodle/help-staff>

Grading form is one of the grading tools that can be used to provide free form feedback and scores to evaluate student work based on defined criteria. The criteria used is more descriptive than measurable and each criterion is standard as opposed to having scaled levels like in rubrics. Students can view the score and comments teachers have given for each criterion in the grading form.
